WORK EXPERIENCE

Digital Finance – Startup Incubation & Acceleration Center

Summer Analyst

Tashkent, Uzbekistan

May 2025 – Aug 2025

- Constructed and maintained 5+ financial models (3-unit economics models) to evaluate seed-stage startups with a combined projected valuation of ~\$5M+
- Led outreach to 15+ international venture capital firms; supported drafting of 5+ participation agreements, enabling startups enter into global accelerator selection processes
- Analyzed financial statements and market data to deliver 10+ pitch decks, presented to mentors and partners
- Performed sensitivity analysis and unit-economics analysis (CAC, LTV, churn) to assess downside risk and propose optimal investment sizing

IT Park Uzbekistan

Summer intern

Tashkent, Uzbekistan

May 2024 – Aug 2024

- Coordinated and negotiated with 10+ international accelerators and venture funds to facilitate cross-border startup partnerships, supporting deal sourcing and accelerator participation
- Designed and implemented evaluation frameworks to assess startup scalability, unit economics, and operational risks; improved mentor evaluation efficiency by 30%
- Built datasets and analytical templates (with Python and Excel) to standardize startup performance metrics and comparative analysis across cohorts
- Organized and executed 3+ investor and partner events, collaborating with startups, venture investors, and government stakeholders to provide smooth information flow and event quality

LEADERSHIP

Soccer Team – “PS Cobras Alumni”

Captain & Organizer

Tashkent, Uzbekistan

June 2024 – Current

- Led a 20+ member team of high school alumni across multiple cities, coordinating matches and schedules
- Organized football events with other alumni and university teams, managing logistics and operations
- Facilitated post-match networking and social activities, strengthening relationships among former peers and expanding professional connections.

Research – Impact of Digital Payment on SME Growth in Uzbekistan

Founder and Co-President

Palaiseau, France

Oct 2025 – Current

- Analyzed digital payment adoption across 100+ SMEs using regression models in R
- Constructed predictive models to identify key growth drivers and statistically significant revenue effects
- Developed recommendations for SMEs to optimize digital payment adoption and maximize revenue growth
- Presented findings to my professors and research coordinator for further review
