ABOUT ME

Backend Developer passionate about building server-side applications, RESTful APIs, and data-driven systems using Node.js and NestJS. Familiar with PostgreSQL, TypeORM, and basic React.js for occasional frontend tasks. Gained hands-on experience by contributing to real-world projects in team environments. Eager to learn, write clean code, and continuously grow as a developer.

WORK EXPERIENCE

Neuron Tech of IT Park residence | Backend Developer

October 2025

Working on developing server-side applications and REST APIs using Node.js and NestJS. My main responsibilities include designing database schemas, implementing business logic, and integrating with external services. I collaborate with the frontend team and team lead in an Agile methodology-based environment.

Key responsibilities:

- Developing backend modules and REST APIs using Node.js and NestJS
- Designing PostgreSQL database schemas using TypeORM
- Implementing authentication, authorization, and role-based access control
- Writing reusable services and repositories following clean architecture principles
- Participating in code reviews and collaborating with the team on designing new features

EDUCATION & CERTIFICATIONS

Tashkent State University of Economics

2021 – 2024
